**Fx4**

One box. Four outputs. Millions of possibilities.

**HIGH PERFORMANCE CONTROLLER**

Advancements in digital signage allow much greater freedom in creating and deploying any scale signage projects. At the forefront of this is the Datapath Fx4, a multi-faceted stand alone display controller. The Fx4 supports a choice of inputs, high bandwidth loop-through as well as 4 genlocked outputs in either DisplayPort or HDMI.

The Fx4 features a DisplayPort1.2 main input alongside two HDMI1.4 inputs offering 4K 4096 x 2160p at 60fps. The intuitive user interface allows users to determine which input is used.

**FEATURES**

- Infinite creative configurations
- UHD / 4K60 input, four HD 1080p outputs
- Rotates, crops, scales, mirrors and bezel corrects
- Multiple inputs for flexible connectivity (Dual HDMI1.4 or single DisplayPort1.2 inputs)
- HDCP1.4 support on all inputs and outputs
- True stand-alone operation: Fx4 can adapt to changes in inputs by adjusting all scale factors
- Network or USB interfaces allow platform independent control (MAC OSX 10.13 & later)
- Pre-load an image for use when signal is not detected

Engineering the world’s best visual solutions
### ADDITIONAL FEATURES

Each output monitor can take its input from any region of the input image as all of the required cropping, scaling, rotation and frame-rate conversion is handled by the Fx4 hardware. These regions can overlap to allow any output to replicate another or can be configured to support any creative splice of the source material. This allows the support of many non-rectangular screen arrangements, as well as any mix of monitor orientations allowing users to create almost unlimited multi-monitor canvases.

The Fx4 also allows users to pre-load an image for immediate display in those cases when the media source or cables malfunction and no signal is being received.

### NETWORK CONNECTIVITY

The Datapath Fx4 has dual ethernet ports to allow users to add the device to their networks. Only one Datapath Fx4 in the chain requires connection to the physical LAN as ethernet loop through is supported on the second port, meaning multiple devices can be connected.

### SPECIFICATION

#### DIMENSIONS

- **Size**: 316mm (l) x 172mm (w) x 42mm (h)
- **Weight**: 1.86kg

#### OPERATING TEMPERATURE

0 °C to 35 °C / 32 °F to 96 °F

#### POWER REQUIREMENTS

IEC switched and fused mains connector 100-240V, 50/60Hz / 35W

#### VIDEO INPUT CONNECTIONS

1 x DisplayPort1.2 (2160p60 or equivalent up to 616MP/s)
2 x HDMI1.4 (2160p60 (4:2:0), 2160p30 or equivalent up to 297MP/s)

#### VIDEO OUTPUT CONNECTIONS

HDMI version: 4 x HDMI1.3 (1080p60, 1200p60 or equivalent up to 165MP/s)*
DisplayPort version: 4 x DP1.1 (1080p60, 1200p60 or equivalent up to 165MP/s)*
* Outputs within 165MP/s but taller/wider than 2048 require testing

Loop-through (both versions): DisplayPort1.2 (locked to selected video input resolution)

#### INPUT SURFACE

8K x 8K maximum

#### GENLOCK INPUT

Analog HD tri-level sync on dedicated BNC connector. Embedded sync in any video input (SDI, HDMI1, HDMI2, DisplayPort) Progressive syncs only.

#### CONTROL INTERFACES

Dual 100Base-T Ethernet ports with inbuilt managed switch. USB 2.0 Type B connector (full speed operation)

#### FIRMWARE SUPPORT

Updates supported via USB and Ethernet connection

#### STORAGE

-20 °C to 70 °C / -4 °F to 158 °F

#### RELATIVE HUMIDITY

5%-90% non-condensing

#### WARRANTY

3 years

**WALL DESIGNER**

Datapath’s hugely popular multi-screen design tool, Wall Designer has also been updated to incorporate Fx4. Wall Designer allows users to add displays from the ever expanding database of monitors, visualise their content by adding inputs and adjusting display regions and finally instantly program all Datapath Fx4s either via USB or the network ports.

**MODELS AVAILABLE**

Order Code: Datapath Fx4/H
4K display controller w/HDCP - HDMI outputs

Order Code: Datapath Fx4/D
4K display controller w/HDCP - DisplayPort outputs
